

2001-1690-XXVII-(39)

Kabul:2007 August 5

Excellency Gerdi Verbeet
Speaker of the lower House
Netherlands parliament.
C/O VAN AS ADVOCATEN

As per letter No.46XX-1690-2001 I would like to draw your kind attention to the point that according to our precise gathered information regarding those low ranking Afghan former military officers who are already accused to human rights violation and war crimes, based on our exact information they haven't been committed violation against humanity.

We believe that the Netherlands Ministry of Foreign Affairs gathered information which comes from Pakistani and Taliban sources are not accurate and precise information in this context and we can't trust on such a base less information because Pakistan government evidently conflicting former and new government in Afghanistan so that's why they are trying to accuse Afghan Military and civilian personalities to such violations.

Nevertheless they have collected this information by the help of Taliban regime whom have officially recognized by Pakistani government as Afghan legitimate government on that time, in deed they were the real murderer of Afghan innocent civilians either yesterday or to day.

It's worth mentioning that even today you are seeing that they are brutally killing our international friends' soldiers while they are here for ensuring security and stability for Afghanistan which the Netherlands soldiers are also included.

Inspite of that Taliban jointly with Pakistani intelligence agency are trying to undignify our democrat personalities in order to destroy their reputations and put them under pressure at national and international levels to utilize the situation for their own inhuman objectives.

On behalf of Afghanistan parliament once again would like to request you and your respected MPs to kindly pay more attention to the destiny of those Afghan asylum seekers who haven't been sheltered yet, under unspecified reasons in your country.

Sincerely,

Mohammad Younus Qanoon
Speaker of the House of Representatives
Afghanistan National Assembly
